

Illuminated STOP Units Types 2800 and 2801

The **Type 2800 Illuminated STOP Unit** is equipped with bayonet base lamp sockets whereas the **Type 2801 Unit** is furnished for use with medium screw base lamps. Bayonet base lamp sockets are single contact.

The **Types 2800 and 2801 STOP Units** are single cast iron units containing four illuminated letters reading S, T, O, and P. Each letter is illuminated by an individual lamp and parabolic glass reflector. Sand-blasted glass or metal cutout letters as desired, can be furnished with either unit.

The door can be secured by an ordinary A.A.R. socket wrench but additional provision is made for locking by padlock.

Adaptors and U-Bolts are furnished for mounting on 3½", 4", or 5" I.D. pipe post, as required.

For ordering reference see next page.
